

DOUBLE JEOPARDY

Check that you have received 20 different nonagons. Contact Puzzle HQ if this is not the case.

Assemble a structure so that normal, nine-letter English words appear in the center of each face. The start and end points of some of the words are provided.

Once constructed, sort the bigrams in alphabetical order, then re-sort them in this order:

20 6 12 4 13 3 8 16 9 14 2 5 17 15 10 18 1 19 7 11

You do not need tape. Its use is contraindicated.
