

PICTURE PAGE

Find seven paths of equal length through the grid below to reveal a set of seven twelve letter clues. Each square must be used once and only once. Paths may go from one square to any of the eight adjacent squares if there is some bit of connection between them. As a bit of a start, “Daffy” can connect to “Gumby”, but not “boars” or “Blade”. This puzzle is best if printed in 11x17 paper.
